

Lyme Disease Online Support Groups

- Feeling isolated?
- Wish you knew other people with Lyme disease?
- Have questions your doctor doesn't have time to answer?
- Want to raise Lyme disease awareness?

Here's a chance to communicate with fellow Lyme patients in your area and find out more about Lyme disease. The online support groups are a virtual meeting place and source for information and emotional support for people with Lyme and other tick-borne diseases. Most are moderated by local Lyme patients.

If you have been diagnosed with Lyme or one of the Lyme "mimics" like fibromyalgia or chronic fatigue, and think you might have Lyme, go to the website and apply to join.

Minnesota:

<http://health.groups.yahoo.com/group/minnesotalyme/>

If you do not live in Minnesota, here's how to find your own state group. All are set up the same way with the state name and lyme run together as one word:

<http://health.groups.yahoo.com/group/STATENAMELYME>

e.g. newyorklyme, except for 4 states which have a hyphen between the statename and lyme, e.g. southcarolina-lyme. Those states are SC, WY, ND, SD.
